

Welcome 2024! Year 4 - Spring 1

We hope you've had a great Christmas. We are glad to be back in school and are excited about the term ahead. This term's topic is Misty Mountain Winding River, it is a geography-based project.

In the Misty Mountain, Winding River project, your child will learn about the characteristics and physical processes of rivers, including how they shape the landscape over time, their significance around the world and the impact of flooding. They will learn how to use the eight points of a compass, four and six-figure grid references, symbols and a key to locate and plot geographical places and features on a map, as well as how contour lines are used to show the topography of an area. They will have the opportunity to learn about the stages of the water cycle and about mountains and their different formations, studying mountain ranges in the United Kingdom and around the world. They will also learn about habitats and how human and natural influences can have an impact on the environment!

Please can you make sure that your children have a winter coat with them at school each day as well as a hat and gloves (all named please!). We also need to remember to have our school reading books with us everyday too.

PE will continue to be on the same days and children are to continue to wear PE kits on this day. Plain white round neck t-shirt,

plain navy or black jogging bottoms & tracksuit top and trainers.

Please ensure that earrings are removed on PE days or that the children have plasters with them in order to cover their earrings before PE begins.

Thank you for your continued support,

Mrs Parker, Miss Barton and Miss Smith
